Baldwin Says Navy Not to Protect Them If They Aid Spanish

LONDON. (A)-Prime Minister Stanley Baldwin told the house of commons today that Great Britain, while guarding her shipping "at sea" in the Bay of Biscay with the world's mightiest warship, could not protect British food ships actually entering the besieged port of Bilbao, Spain.

The stocky head of conserva-tive government outlined this stand, reached at a sudden Sun-day meeting of the cabinet, at a moment when the H.M.S. Hood, mighty battle cruiser bristling with 28 guns, had reached a position off Bilbao after a forced-draft voyage from Gibraltar.

Cites Freedom Plea "The conclusion which the petitioner draws is that whatever

employes in its mechanical departments it must have absolute and unrestricted freedom to employ and to discharge those who, like Watson, edit the news, that there must not be the slightest opportunity for any bias or prejudice personally entertained by an editorial employe to color or to destroy what he writes and that the Associated Press cannot be free to furnish unbiased and impartial news reports unless it is equally free to determine for itself the partiality or bias of editorial employes. So it is said that any regulation protective of lectively to bargain on the part of such employes, is necessarily an invalid invasion of the freedom of

the press. "We think the contention not only has no relevance to the circumstances of the instant case, but is an unsound generalization. The obstensible reason for Watson's discharge as embodied in the records of the petitioner, is 'solely on the grounds of his work not being on a basis for which he has shown capability.

No Bias Claimed

"The petitioner did not assert and does not now claim that he had shown bias in the past. It does not claim that by reason of his connection with the union he will be likely, as the petitioner honestly believes to show bias in the future. The actual reason for his discharge, as shown by the unattacked finding of the board, was his Guild activity and his

agitation for collective bargaining.
"The statute does not preclude a discharge on the ostensible grounds for the petitioner's action; it forbids discharge for what has been found to be the real

motive of the petitioner.
"These considerations answer the suggestion that if the petitioner believed its policy of impartiality was likely to be subverted by Watson's continued service, gress was without power to interdict his discharge. No such ques-tion is here for decision. Neither before the board (National Labor Relations board) nor in the court below nor here has the petitioner

by contending that regulation in a situation not presented would be policies and many differences in invalid. Courts deal with cases upon the basis of the facts disclosed, never with non-existent and assumed circumstances."

# ORANGES MAKE

A set-back in growth of oranges suffered during the January freeze, apparently is not permanent, the Association Laboratory reported today in its monthly tabulation of fruit sizes and growth rates.

Outside fruit averaged 2,511 inches in diameter, slightly larger than fruit at this time last year, when the average measurement was 2.507 inches.

Inside fruit measured an average of 2.418 inches, as compared with 2.338 last year at this time. Average growth since March 1 was .058 inch outside and .066 inch

Average measurements are tab-ulated from regular observations on 16 groves.

Experts See Huge Cut If Income and Outgo Are to Balance

By WILLIAM S. ARDERY

President Roosevelt will revamp budget forecasts in a message to congress this week, taking into account a drop in this year's revenues under estimates.

Relief outlays-heart of the controversy over whether the budget can be balanced-were discussed at a conference between Mr. Roosevelt and governors and other representatives of six states last

May Slash WPA

Officials reported the group sought to prevent a sharp cut in relief rolls this year. After the conference, however, there were reports the President indicated the federal financial set-up necessitated a scaling down of Works Progress administration rolls.

In his revised budget estimates, the President is expected to whittle estimates of both revenues and expenditures for this fiscal year. retary Morgenthau has announced. This is expected to aggregate about \$300,000,000.

There is widespread speculation, however, over whether the sevenyear gap between receipts and expenditures may be closed in the next fiscal year.

Income May Drop

In his January budget. Mr. Roosevelt said that exclusive of debt retirement, the 1938 budget would be balanced if relief outlays do not exceed \$1,537,000,000.

Receipts for 1937-38 were estimated at that time at \$7,293,000,-000. If the present revenue trend continues next year, actual tax collections might drop 10 to 15 per cent below this figure. A corresponding cut in outlays would be necessary to match expenditures with income.

The only alternatives to a slash

in expenditures are continuance of government borrowing or the imposition of new taxes.

# New Santa Fe LEADERSHIP

Mr. and Mrs. C. F. Skirvin assumed host duties for their bridge

club on Saturday night, entertain-

ing the ten other members at a delightfully planned evening of

cards following a dessert course.

 ADVANCING, in transcontinental high speed and a higher grade of railway service to CHICAGO, with The CHIEF, The SUPER CHIEF, The All-Pullman CALIFORNIA LIMITED, The GRAND CANYON LIMITED and other prominent daily through trains, The SANTA FE now places in the forefront its latest perfected train, THE SCOUT, operated exclusively for COACH and TOURIST CAR passengers.

OF CHICAGO TRAINS

# The SCOUT'S Equipment

· COACHES of new interior designs; adjustable chairs cushioned for fine comforts and changeable position; lounges for relaxation; and conveniences of latest developed usefulness. NEW TOURIST SLEEPING CARS with same complete qualities of the Standard Pullman, and with exceptional furnishings of elegance and color. DINING CARS managed by Fred Harvey, and equipped with the linens, the gleaming tableware, the selected Chefs, Stewards and Waiters of experience; supplied, too, with the dishes of true Santa Fe design. ALL CARS AIR-CONDITIONED.

# The MEALS

 NO EVENT in Santa Fe cooperation exceeds in popularity the Meal Service of The SCOUT. Prices, as extraordinary as the quality-Breakfasts 25¢, Luncheons 30¢, Dinners 35¢ - with a la carte selections at equally low costs-have brought a large number of congratulatory letters in personal appreciation of the economy and excellence of Fred Harvey's cookery and service applied generously to this train. The meals are complete from appetizer through to final sweets, and liberality adds further to the satisfaction of keen appetites.

# The FARES

• On The SCOUT, fares for Coaches and Tourist Cars, are lowest in transcontinental railway history. And the Santa Fe's fine service on this train brings the travel facilities for these fares up to the best that can be de-

veloped... the SAFEST... the most enjoyable for All. . The scenic trip over the great Santa Fe Route never fails to thrill with interest and admiration.

# The SPEED

• The SCOUT has the swiftness of the Limiteds. Leaving Los Angeles at 7:05 p.m. (San Diego at 3:00 p.m. with through cars-no change) the arrival in Chicago is 7:40 a.m. a little more than 58 hours from Los Angeles.

DRINK AND THE DEVIL . . When authors Nordhoff and Hall seized upon the history of the mutiny on the British ship "Boun-ty" as a theme for a series of semi-fictional novels, they swept a small island in the Polynesian group from obscurity into the in-ternational limelight. The island is Pitcairn, now famous as the place where nine of the "Bounty's" mutineers settled and as the home of their descendants.

With the mutineers went 18 natives from Tahiti, six of them men,

Liquor, prepared from fruit, flared the embers of animosity into outright violence. Whites with native wives were the chief cause of dispute. A murder was committed—then another. Several white men drank themselves to death. Within 10 years there was only one living white man on the island—John Adams.

Adams had saved a Bible from the ship. Instituting worship and a school, he became ruler of the Tomorrow: Double Discovery.

# UNION PLANS

A mass meeting of retail clerks of Santa Ana interested in forming a union will be held at 8 o'clock tonight in the Labor Temple, Fourth and Birch streets. The movement to form a county-wide union of retail clerks is expected to take form at the meeting tonight, when clerks meet to discuss the program. An organ-izer from Los Angeles is expected to attend the meeting.

Grocery clerks appeared to be taking the lead in forming the union, when the matter came before the Orange County Central Labor council last Monday night. At that time arrangements were made for the meeting tonight.

Members are scheduled to be signed up tonight, and application made for a charter under the American Federation of Labor. At last Monday's meeting spokesmen for the clerks said they planned to make the clerks' union a conservamake the clerks' union a conservative organization and work out mutual problems with employers 100- $\alpha$  in a friendly and harmonious

# These Children Need Help---NOW!

WHEN The Journal reported that local school officials had found nearly a hundred undernourished youngsters suffering from hunger at their desks, the board of supervisors simply couldn't believe the story.

"It can't be true," one supervisor exclaimed. "The newspaper must have been given some false figures." So the board ordered a survey of its own.

This survey has been completed by county health nurses under direction of County Superintendent of Schools Ray Adkinson. Nearly 600 malnourished children have been found in county schools, exclusive of the group in Santa Ana.

The results should convince the most skeptical member of the board that a bad, a pitiful, an outrageous situation does exist here—although this is the "richest county in the United States."

The question now before the people is: What shall be done about it?

In our opinion, it's the board's move.

No longer is it possible to put off relief action by blaming a newspaper for printing facts which an unbiased official county survey has substantiated.

No longer is it possible to dodge the issue by any more hocus-pocus and red tape. No longer it is possible to tell the people of Orange

county that those hungry children don't exist; that some newspaper is simply having bad dreams.

The hungry children are real; they do exist; the county nurses have seen and talked to them.

## Several relief methods have been suggested.

One calls for giving the needy youngsters milk and a hot lunch at school at county expense. An advantage of this plan is that the relief is certain to go to the child who needs it and not to some other member of the family, perhaps; another good point is that milk and one hot lunch per day can go far toward restoring the youngster's rundown condition.

Still another suggestion is that a private fund be raised and turned over to the Parent-Teacher association for use in meeting the need.

We believe that the first plan should be given a trial, with whatever changes and modifications necessary. The county has money allotted for relief purposes. It has agents who can do the job with WPA project assistance,

And if supplying food to semi-starved children isn't a legitimate function of county relief, we would like to know what is.

Another suggestion worth consideration is that advanced by Boy Scout Executive Harrison White. Mr. White points out that summer vacation is approaching—a time when juvenile delinquency shows a marked rise and when these hungry children will not be able to get the private care now being given in some cases or which in the future might be given at all schools.

"Why not send these youngsters to summer camp?" he asks. "The Scouts and other groups have camps to which these underprivileged boys and girls could be sent for a couple of weeks for only the actual cost of the food and transportation."

We believe that the board of supervisors should consider that idea, too, when they take up the matter.

The important thing, however, is to do something

Our supervisors should make it clear at the earliest possible moment whether they are going to take care of these children or not. If they plan to do the job, we can trust them to do it

But if they intend to wash their hands of the plight of these six or seven hundred youngsters, let them tell the public so other arrangements can be made.

A prominent auto dealer here has already told The Journal he will give \$100 to lead off a fund to aid these tots. There are more citizens who feel the same way and who will give to the best of their ability.

This step should not be necessary, however. The supervisors have the money and they have the

authority to act at once. It's their move. Let the good work begin!

# Collegians and Non-Collegians

WE ARE indebted to a keen-minded reader for catching an error in an editorial Friday headed "College or Non-College Minds?" We listed a series of questions compiled by Dr. Lentz of Washington university, with the statement that the average non-collegian generally answers them "no" while the college grad usually replies "yes." This was a mistake. It's just the other way 'round. The non-collegian says "yes," and the college grad "no." Here are the questions again:

"Do you believe the white race is superior to all other races?"

"Is it bad for a married man to take another man's

wife to the movies?" "Almost all men should wear neckties." "Criminal laws and rates of punishment should be the same in all countries, regardless of crime."

'Women have a power of intuition that men do not

A reader questions one of my ravings on the subject of how I planned to keep the wolf away from my door if Old Man Depression had knocked me for the full-sized loop he executed on many a less fortunate mortal.

Writes he: "You merely hint of of the results of the results of the results of the results of the two port Beach. Lew Wallace, only director of the chamber of commerce now at Newport when the flight took place, insisted it was from the field now used by Eddie Martin. I do not remember that flight, but I was at Balboa on one of his earlier aerial trials and refused an invitation to accompany him. Writes he: "You merely hint of ing-time on any day that I would

Along about the Saturday noon hour I discover one business man waiting for another business man who has made arrangements with The matter was most forcefully brought to my attention when I discovered only two days ago that Richard Haliburton was to speak here on the Friday night of the Southern California Tournament ernoon of relaxation and conge-nial association. But as the afternoon approaches I discover that my feet have been pushed over the pavements to the point where they seek rest and water.

Thanks to Sam Myers of the Newport News for a friendly reference, even if he did spell "Skirvin" with an "e."

Say, maybe that bench proposi-tion for the business section isn't such a bad idea after all. At least sitting down appears to be popular in industrial sections. And the good old summer time is coming when the spring lethergy at-tacks the physique and a fellow is willing to flop down any old
